Rio de Janeiro and Iguazú

Although the beaches are surely at the top of any list for a trip to Rio, it is a cosmopolitan city, which in recent years has been undergoing a huge process of transformation and modernisation. As such, the list of places to visit in Rio de Janeiro can be almost endless. And what can we say about the lush Iguazú Falls? Located between Brazil and Argentina, Iguazú is formed of 275 waterfalls up to 80 metres high that constitute one of nature's greatest spectacles. Named one of the world's Seven Natural Wonders, the falls make up a wonderful landscape that can even move visitors to tears with its wild magnitude. With only 20% of the falls in its territory, the Brazilian side offers views that are just as breathtaking as those from the Argentinian side, thanks to the wilderness that surrounds the turbulent waters.
